

IMPROVE YOUR LANDSCAPING WITH A MODERN — VINYL — PERGOLA KIT

The DFS Pergola will provide that final touch to any front, back yard or garden. Built for the harsh Canadian winters and warm summers, the Pergola is low maintenance and made from weather-resistant vinyl.

Wood products get battered by the elements, warp, crack or rot and with paint that peels and fades. Vinyl means there is no need to paint or stain the Pergola and it will always look as good in ten years as the day you bought it. Simply spray it down once a year with a garden hose to keep it in tip top shape. Not only that, the DFS Pergola is made from virgin vinyl with special additives to resist yellowing or fading.

Sold in a boxed kit, the DFS Pergola comes with instruction and online videos to make putting it together easy and with minimal tools required. Improve your home and yard curb appeal with a DFS Arbour that you can enjoy for a lifetime.
