COLOUR LOCK™ PVC FENCING TECHNOLOGY

Tan Jasper Fence

At DFS, we proudly offer Colour-Lock™ PVC fencing, an exclusive advanced formula designed to deliver superior colour retention, durability, and long-term performance. Colour-Lock™ provides your vinyl fence with industry-leading protection, helping it maintain its appearance for years. Unlike standard vinyl fencing, DFS uses high-grade acrylic coating technology combined with advanced additives to protect against UV exposure, fading, chalking, and harsh weather conditions. We do not offer low-grade PVC colour coatings on any of our profiles.

Built for Canadian Climates

Colour-Lock™ technology is engineered to protect both the colour and surface of your PVC fence far longer than standard vinyl systems. Designed specifically for Canada's extreme weather, our fences withstand intense sun, freezing temperatures, snow, wind, and seasonal temperature swings. Backed by a strong warranty, Colour-Lock™ delivers long-lasting strength, stability, and colour integrity you can trust.

The Smarter Choice in Vinyl Fencing

While many companies claim to offer PVC-coated or vinyl fencing, not all products are equal. Colour-Lock™ helps prevent premature fading, chalking, and costly replacements, making it the smart choice for residential, commercial, and contractor applications.

DFS is proud to be Canada's leading innovator in PVC fencing, offering one of the most advanced colour-fade protection systems available.

Quality is our culture — let us prove it to you.

MALDEN

ORNAMENTAL STEEL FENCE

Specifications: 3/4"x3/4"-18GA Picket | 1-9/16"x1-3/16"x1-9/16"-14GA Rails | 14GA, 16GA & 11GA Posts

Malden Metals fences are engineered with premium materials for durability and adaptability. Our rackable design ensures smooth installation, even on sloped terrains.

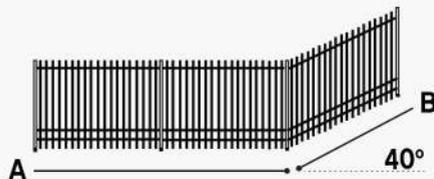

PRIMARY APPLICATIONS

- ▶ Residential homes
- ▶ Condominiums
- ▶ Townhouses
- ▶ Apartments
- ▶ Cottages
- ▶ High-sloped areas

RACKABLE PANELS

Designed to rack up to 40°, Malden Metals fences seamlessly adapt to uneven landscapes.

STYLE OPTIONS

Choose from various styles like Buxton, Caldwell, and Richmond, with durable rails and panel designs tailored for any aesthetic.

20 YEAR LIMITED WARRANTY

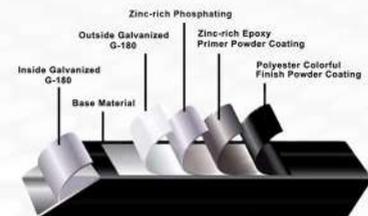

Manufactured with the highest-grade materials, Malden Metals fencing comes with a 20-year warranty, ensuring long-lasting performance and quality.

TRUE GUARD™ PROTECTION SYSTEM

- ▶ Fully galvanized with a 180g Zinc Mass coating for rust prevention.
- ▶ Enhanced adhesion through a seven-stage zinc phosphate pre-treatment.
- ▶ Welds and edges coated with zinc-rich epoxy primer.
- ▶ Finished with anti-corrosion polyester powder coating for superior weather resistance.

MORE LAYERS, MORE PROTECTION

ORNAMENTAL FENCE

BUXTON

The Buxton is a sleek, modern fence that combines style with durability. Perfect for any project, it provides both enhanced security and contemporary aesthetics.

“ The Original Weld-Free Gate Solution ”

WHY CHOOSE THE MOTTA BLOCK GATE KIT?

- ▶ **Weld-Free Convenience:** Simplifies gate installation with a no-welding design.
- ▶ **Customizable Fit:** Adjustable to fit a variety of gate sizes and fence styles.
- ▶ **Built to Last:** Durable materials and engineering for long-term performance.
- ▶ **Easy Assembly:** Quick and straightforward process for both DIYers and professionals.
- ▶ **Secure and Stable:** Features Motta Lock technology for a firm, reliable hold.

KEY FEATURES:

- ▶ **Innovative Weld-Free Design:** Eliminates the need for complex tools or skills.
- ▶ **Adjustable Size:** Can be tailored to fit your specific gate opening requirements.
- ▶ **High Durability:** Manufactured with premium materials for enhanced strength.
- ▶ **Professional Finish:** Provides a clean, polished look for your fencing project.
- ▶ **Trusted Performance:** Engineered to withstand various weather conditions.

WHAT'S INCLUDED:

- ▶ Welded fence panel
- ▶ Gate side rails
- ▶ Motta Blocks
- ▶ Motta Lock adhesive
- ▶ Hardware for assembly

MOTTA BLOCK INSTRUCTIONAL VIDEO

THE PERFECT SOLUTION FOR YOUR FENCING NEEDS:

Transform your outdoor spaces with the Motta Block Gate Kit, the ideal choice for homeowners and contractors seeking an elegant, practical, and long-lasting gate solution. Whether it's for residential, commercial, or industrial use, this kit offers unparalleled flexibility and ease of installation.

DIRECT FENCING SUPPLY

TOP RAIL TIE (TRT)

WHAT DOES THE TOP RAIL TIE (TRT) DO?

- Replaces rail notching or keeper screws.
- Distributes undue stress from the top rail to the strongest part of the post.
- Eliminates post failures at the routed holes from incorrect stressing.

WHAT CAN THE TRT DO FOR YOU?

- When you install your fence the bottom rail will not come out because it is held secure between the pipe. The upper rail still needs to be secured and the TRT fixes this problem for you.
- The TRT eliminates the need for notching which takes time and makes for very difficult disassembly if ever required, especially in cool climates.
- Adds a professional finish to the top rail adjustments.

Our TRT allows you to install vinyl fence without causing undue stress on the post by securely fastening the top rail within a PVC post.

DIRECT FENCING SUPPLY

DFS POST LEVELLING COLLARS (PLC)

DFS post levelling collars are simply the best post-to-pipe pole levelling system on the market today. Our PLC allows you to install your steel posts without using concrete.

SOME FACTS

- Stronger one-piece design
- Maximum adjustability—slot extends to outer diameter
- Quicker and more accurate than two-piece design
- Flexible enough to fit over slightly “mushroomed” pipe
- Internal ridge keeps it from sliding during installation
- Easy to repair the fence and replace the posts since they are not concreted into the ground
- Cleaner—no left over dirt tailings after post installation. Save money on labour, concrete the expense to agar holes and remove the dirt tailings.
- Quicker install, no need to wait for concrete to set and hope your posts do not move as the concrete dries.

Your customers will be pleased with a clean, damage-free installation—without the need of a skid steer, auger or concrete mixer. You will save money on vinyl because the PVC post length stays above grade—a six-foot fence requires only a six-foot PVC post. Our post collars have been proven in some of the harshest climates and most difficult soil conditions in Canada.

POST POUNDER

The DFS Post Pounder uses a 2 stroke 52CC gasoline engine that has the power you need to drive your pipe into the ground. Built for durability and power, this versatile post pounder will not only handle the galvanized steel pipe for a vinyl fence but it also accommodates other sizes of posts and pipe. The sleeve adaptors that are included are 2", 2.75", and 4".

The DFS Post Pounder will save you time and the back-breaking effort needed to pound your pipe in by hand. Put it to the test and you will see its uncompromising quality and effortless post-pounding. Your post pounder also comes with a fuel mixing can, tool kit, grease, and a rugged carrying case making portability even easier.

Save time and money with your DFS Post Pounder.

QuoteKing by Park Media is an innovative, web-based application designed to simplify the process of obtaining accurate fencing quotes. With its user-friendly interface, customers can easily input their fencing requirements and explore a variety of options, including, vinyl fence, ornamental fence, and sound barrier. The platform also enables users to archive and edit their project, providing flexibility to make updates or adjustments as needed. Pricing can be customized, ensuring precise control over project budgets. Built to handle fencing solutions designed for durability and performance, QuoteKing is the ultimate resource for efficient project management and enhancing

QUOTEKING FEATURES:

Versatile Product Support:

- ▶ Vinyl Fencing
- ▶ Ornamental Fencing
- ▶ Sound Barrier Fencing

User-Friendly Interface:

- ▶ Easily input project requirements and receive accurate quotes

Project Management:
